WORK EXPERIENCE

Gain Solutions, Dhaka, Bangladesh - Backend Developer - Project Lead

November 2023 - Present

Achievement:

- Led the backend development of a scalable CRM platform and upgraded legacy HRM systems using Node.js, PostgreSQL, and AWS.
- Designed microservices with Sequelize and GraphQL for better performance and code structure.
- Managed AWS infrastructure (ECS, Lambda, EventBridge, CloudWatch) to improve uptime and monitoring.
- Optimized SQL queries, reducing average response time by 35% and API workflows to make the system faster and more efficient.
- Worked closely with frontend, DevOps, and product teams to deliver new features smoothly.
- Guided junior developers, reviewed code, and handled sprint planning and architecture decisions.

Gordian Global Solutions, Melbourne, Australia - Software Engineer (Contractual)

December 2023 - July 2024

Achievement:

- Contributed to building a change management SaaS tool using Node.js, GraphQL, PostgreSQL, Sequelize, React, and AWS.
- Integrated Power BI reports and built a custom PDF export system to reduce API costs by over 50%.
- Restructured database models to meet new project needs and improve performance.
- Implemented theme customization and WordPress-based learning center, boosting user engagement by 25%.
- Set up CI/CD pipelines to automate backend deployment and speed up delivery.

MedLink Jobs, Hyderabad, Telangana, India - Software Engineer - Lead

November 2022 - October 2023

Achievement:

- Built and launched a recruitment platform that reached over 50,000 users.
- Developed backend with Node.js, GraphQL, MySQL, and AWS services like AppSync, Lambda, and EventBridge.
- Improved deployment flow for smoother transitions between environments.
- Worked with different teams to debug, test, and release features on time.
- Used Jira, Bitbucket, and Figma for task management and collaboration.

Mimothi Solutions Pvt. Ltd, Bangalore, India - Full Stack Developer

March 2022 - October 2022

Achievement:

- Developed web and mobile applications using React, React Native, Material UI, Node.js, PostgreSQL, MySQL, AWS, and GraphQL.
- Fixed critical bugs and added new features to improve overall user experience.
- Tested and debugged APIs to maintain high performance and stability.
- Helped the team meet deadlines by solving technical challenges quickly.
- Worked in an agile environment using Jira, Bitbucket, and Figma.
